

# SECURE CLOUD FAX

## WESTFAX ENTERPRISE CAPABILITIES

### WestFax Cloud Fax API Integration

Quickly deploy enterprise-grade faxing with our powerful and easy to use Restful API. We specialize in rapid prototyping and simple migrations from other fax platforms.

### WestFax Enterprise OCR Engine

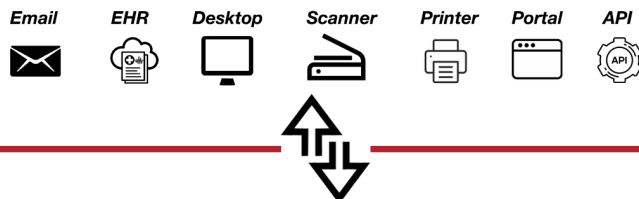

Inbound fax OCR integration allows for robust workflow and document processing. We support documents that are structured, unstructured as well as most barcode/QR codes.

### WestFax CloudFax Connector

We can integrate with most makes/models of MFPs to send fax natively. Utilize the benefits of secure cloud fax seamlessly with your existing MFP deployment.

### WestFax Fax to Direct Message Protocol

Utilizing the WestFax OCR Engine we can translate and relay an inbound fax to your Direct address. Modernize your platform while maintaining ultimate compatibility.
